

DEFENSE COUNTERINTELLIGENCE AND SECURITY AGENCY

VOICE OF INDUSTRY

DCSA MONTHLY NEWSLETTER

August 2024

Dear Facility Security Officer (FSO) (sent on behalf of your Industrial Security Representative (ISR)),

DCSA Industrial Security (IS) publishes the monthly Voice of Industry (VOI) newsletter to provide recent information, policy guidance, and security education and training updates for facilities in the National Industrial Security Program (NISP). Please let us know if you have questions or comments. VOIs are posted on DCSA's website on the [NISP Tools & Resources](#) page, as well as in the National Industrial Security System (NISS) Knowledge Base. For more information on all things DCSA, visit www.dcsa.mil.

NATIONAL BACKGROUND INVESTIGATION SERVICES (NBIS)

DISS DATA QUALITY REQUEST

In an ongoing effort to ensure proper data alignment in the Defense Information System for Security (DISS) Joint Verification System (JVS), DCSA is requesting customers to ensure their Security Management Office (SMO) information is updated.

Please ensure that your SMO Address, Points of Contact (POC) and Key Management Personnel (KMP) (for Industry users) is complete and current. Users can make these updates at this time using detailed instructions and permissible roles in the DISS-JVS User Manual. The User Manual is accessed by clicking the Help link once logged in DISS-JVS.

Refer to the DISS-JVS User Manual sections listed below to verify or update these fields:

- **SMO Address** - Please ensure your address is correct and in the correct format
 - Add a SMO Location – 3.3.1.9
 - Edit Primary SMO Location – 3.3.1.10
 - Edit SMO Location – 3.3.1.11
 - Delete SMO Location – 3.3.1.12.
- **SMO POC** - As a reminder, a user must be provisioned in the SMO to be picked as a POC
 - Add SMO Point of Contact – 3.3.1.16
 - Delete SMO Point of Contact – 3.3.1.17
 - Edit SMO Point of Contact – 3.3.1.18
 - Change Primary SMO Point of Contact – 3.3.1.19.
- **SMO KMP** - Please ensure all KMPs are updated in NISS as they flow to DISS to be eligible to be picked for your SMO
 - Add SMO Key Management Personnel – 3.3.1.20
 - Remove SMO Key Management Personnel – 3.3.1.21

- **SMO Modifications and Hierarchy Changes** - If you have multiple SMOs and need to create or adjust your hierarchy, please go to [NBIS Resources](#) (tab at page bottom) to obtain the Hierarchy Change Request (HCR) form and guide. You can also use the HCR form to request SMO name changes, new child SMOs, and SMO deactivations. Refer to the DISS-JVS User Manual sections listed below for SMO Modifications.
 - SMO Actions – 3.3.1.4
 - Move SMO in Hierarchy – 3.3.1.5
 - Move SMO Outside of Hierarchy – 3.3.1.6
 - Search SMOs – 3.3.3
 - Deactivate a SMO – 3.3.4.2
 - Edit Affiliated Organization – 3.3.1.7.

For NBIS Industry/FSOs support, contact the Customer Engagements Team (CET) at 878-274-1765 or dcsa.ncr.nbis.mbx.contact-center@mail.mil.

NBIS 4.7.2 COMING SOON

DCSA is pleased to share with you the Initiate, Review, and Authorize (IRA) updates for the upcoming deployment of release 4.7.2. The release is expected to deploy to production in September.

Specific release notes will be presented on the [NBIS News Page](#) and the Security Training, Education, and Professional Portal ([STEPP](#)) as they are available.

One important note, the Obligating Document Number (ODN) is a billing code that will be a new addition to the Financial Details section of the order form and will be a required field effective when 4.7.2 is deployed. There is no action for cleared industry as it relates to the ODN. The NBIS team worked with Adjudication and Vetting Services (AVS) (formerly VRO) to add the correct ODN into the Order Form Templates, which will be available to all Industry users.

NBIS TRAINING RESOURCES

All NBIS training resources are available on STEPP. Access to STEPP requires an account, and the site is accessible via a secure Smart Card Login. For any issues accessing STEPP, contact the STEPP Help Desk at 202-753-0845 (M-F 8:30 a.m. to 6:00 p.m. ET).

Once on the [STEPP NBIS Training Homepage](#), users will find a comprehensive training library which includes job aids, e-learning, video shorts, learner paths, and webinar recordings.

NBIS Training Updates:

- DISS eLearning modules and DISS job aids can now be accessed on STEPP via the NBIS Training landing page.

- A new Subject Management Mini-Series has been posted to STEPP. The series contains individual video shorts which cover creating, editing, and affiliating a subject.
- Live NBIS webinars have been paused temporarily, please monitor STEPP for future dates.
- New webinar recordings are being posted to STEPP, check out the webinar section on the site to find them. Keep an eye out for these new recordings:
 - Organization Management: Notifications
 - Affiliations and Access
 - A Day in The Life: NBIS for Security Managers.

Be on the lookout for the NBIS Training Newsletter, which is sent monthly via email to all NBIS users. The newsletters can also be found on www.dcsa.mil under NBIS Training. For questions about NBIS Training, contact the NBIS Training Program at dcsa.quantico.nbis.mbx.training@mail.mil.

SECURITY RATING SCORECARD IMPLEMENTATION

On June 10, DCSA [announced](#) the successful joint development of a Security Rating Scorecard in cooperation with the National Industrial Security Program Policy Advisory Committee (NISPPAC) national working group. The Scorecard, which will be implemented on October 1, incorporates a numeric security rating score and enhanced criteria definitions, as requested by industry. It does not change the way DCSA conducts security reviews, rather, aims to minimize subjectivity, increase quality, and enhance clarity in the security rating process for all stakeholders.

To date, DCSA has conducted 17 internal training sessions ensuring industrial security field personnel are fully prepared to implement the Scorecard on October 1. Additionally, DCSA has conducted 10 external presentations, training over 3,400 external stakeholders on basic Scorecard principles and over 1,300 external stakeholders on advanced concepts.

To learn more about the Security Rating Scorecard:

- Visit the [DCSA Security Review and Rating Process webpage](#), future rating process tab, to access the [Security Rating Process Slick Sheet](#), [Security Rating Criteria Reference Card](#), [Security Rating Score Tool](#), and other important resources.
- Review the following CDSE webinar recordings:
 - [Introduction to the Security Rating Score](#)
 - [Security Rating Criteria Requirements](#)
 - Security Rating Score Tool and Resources ([pending](#)).

DCSA IN THE CUI MISSION SPACE

In February 2024, DCSA published “Oversight Through Assistance, Not Assessments: Clarifying DCSA’s Role in the CUI Mission Space” for Industry. That article announced and this article reiterates our support and focus to provide security assistance and guidance to Industry and Department of Defense (DoD) Components on the safeguarding of Controlled Unclassified Information (CUI) with established CUI requirements identified within DoD classified contracts for NISP contractors falling under DoD’s cognizance. As DoD continues to mature its policy and procedures since the initial release and publication of DoD Instruction 5200.48, “Controlled Unclassified Information,” in 2020, DCSA will adjust and pivot to remain consistent with applicable policy, procedures, and expected norms regarding CUI requirements for cleared industry.

Within DCSA, the Enterprise Security Operations (ESO) division has established itself as the CUI Program Office for Industrial Support (CPOIS) to form a one-stop shop for cleared DoD industry and DoD Components to ask questions, receive guidance, and collaborate on best practices regarding the oversight of CUI requirements for information within classified contracts. CPOIS meets these responsibilities by coordinating with other DoD Components regarding training, education, tools, establishing uniform security requirements, providing assistance, and consolidating input on the oversight of CUI. Keeping in line with our guiding principle when it comes to safeguarding CUI, “We want to be with you, so we can hear from you, so we can be here for you.”

If you have any questions pertaining to CUI Program implementation at your facility, please contact us at dcsa.quantico.ctp.mbx.eso-cui@mail.mil.

NAESOC HELP DESK NEW DIRECT PHONE LINE

On September 3, 2024, the National Access Elsewhere Security Oversight Center (NAESOC) Help Desk will transition to its **new number (878) 274-1800**. Based on customer feedback, we have identified that this is the best way to continue to provide oversight activities that help make the NISP a more secure entity. Your feedback is valuable to us.

As a friendly reminder, our Help Desk hours are:

Monday through Thursday - 9:00 a.m. to 3:00 p.m. ET

Friday - 8:00 a.m. to 2:00 p.m. ET

We are committed to continuously improving our processes to align with our customers experience. As always, you can reach us via e-mail at dcsa.naesoc.generalmailbox@mail.mil or NISS message. Thank you for your partnership.

NCCS ENHANCEMENTS

At DCSA, we are committed to empowering industry partners with the tools and resources needed to succeed in industrial security. That's why we are excited to share the latest enhancements to the NISP Contract Classification System (NCCS) to streamline your workflow and reduce administrative burdens.

What's New?

We listen to your feedback and are working tirelessly to improve NCCS. The result is a more intuitive, user-friendly experience that makes it easier than ever to:

- Register - New industry users can now register using our Contract Account Manager (CAM) or CAGE Code lookup feature to quickly and accurately identify your organization's account.
- Stay informed - Receive email notifications when you have a new item in your queue to stay on top of important tasks and deadlines.

New Training Materials Available

We are always developing new training materials to support your use of NCCS. Our website features:

- Quick start guides providing step-by-step instructions for industry partners to set up their organization, gain access to the hosting platform, and register to start using the NCCS application.
- A comprehensive user guide for Industry, offering in-depth information on using NCCS to manage contract classification and other tasks.

Get Started Today!

We encourage all Industry partners to visit our [NCCS website](#) to review these new materials, follow the registration instructions, or contact us via email if you need assistance. Our team is here to support you every step of the way.

Thank you for your continued partnership with DCSA. We are committed to providing you with the best possible experience using NCCS and look forward to serving you in the future.

SAM.GOV PROCESSING TIMELINES

DCSA is aware of delays in processing timelines and documentation issues associated with the System for Award Management website (SAM.gov). Field personnel have encountered past-due registrations and outdated information associated with cleared facilities. Facility actions should not be delayed if the facility has provided documentation to DCSA proving they have submitted requests for changes or other required information through SAM.gov or other instructions per the Federal Service Desk guide. These delays have received Congressional interest. Please coordinate through your region if you have additional questions or concerns.

BLACK LABEL CONTAINERS/ELECTROMECHANICAL LOCKS

The black label General Services Administration (GSA) container phase out begins October 1, 2024. GSA has determined that agencies must phase out use of all GSA-approved security containers and vault doors manufactured from 1954 through 1989 ("black labels") to store classified information and materials. To begin this process, GSA has issued a detailed phase-out which can be viewed in [ISOO Notice 2021-01](#).

The phase-out plan rescinds approval over a period of four years beginning on October 1, 2024. It starts with the oldest cabinets and proceeds to the last of the black labels. Agencies/contractors must take actions to replace the containers and vault doors as needed before the dates listed in the notice.

Agencies can easily identify the GSA-approved cabinets and vault doors produced prior to 1989 by the silver and black GSA approval label on the outside of the cabinet or vault door and by the certification labels and manufacturing dates located on the control drawer body or on the inside of the vault door. The containers should be destroyed/dispositioned in accordance with the appropriate destruction guidance for each entity.

Follow the guidance for the disposition of the electromechanical mounted combination locks. Depending on the type and model it can be locally destroyed/thrown away or may be required to be returned to the DoD Lock Program. Refer to the DoD Lock Program website at [Security Equipment Disposal](#).

Disposal. If you have specific questions or need assistance, please contact the DoD Lock Program, Technical Support Hotline:

Toll-free: (800) 290-7607

DSN: 551-1212

Commercial: (805) 982-1212

Email: [Technical Support Hotline](#).

COUNTERINTELLIGENCE SVTC

DCSA invites cleared industry and academia personnel to participate in a Secure Video Teleconference (SVTC) entitled, "DCSA Trends Snapshot." On Thursday, September 12, 2024, analysts from DCSA Office of Counterintelligence, Analysis Division, and CI Cyber Mission Center will provide a snapshot of recent technology threat trends. This event is intended for cleared personnel including, but not limited to FSOs, KMP, executive officers, engineers, business development personnel, industrial security personnel, and cyber security professionals. The SVTC is an in-person event and will be held September 12, from 1:00 to 2:30 p.m. ET at most DCSA field office locations. Please register [here](#).

QUARTERLY INDUSTRY STAKEHOLDERS' ENGAGEMENT

The DCSA Customer & Stakeholder Engagement (CSE) team will be hosting the next quarterly Industry Stakeholders' Engagement (ISE) meeting on September 26, 2024, from 10:30 a.m. to 12:00 p.m. ET for all Industry FSOs and Security Professionals. The last Engagement, held on June 27, 2024, resulted in informative briefings from multiple DCSA mission sets and several questions being answered and addressed. The slide decks and Q&A for past ISEs can be requested by e-mailing the DCSA Industry Liaisons at: dcsa.boyers.dcsa.mbx.industry-agency-liaison@mail.mil.

The September ISE will be held virtually via Webex and a dial-in number. The tentative agenda will consist of:

- Introduction/Welcome
- DCSA Background Investigation (BI) – Industry Metrics and Updates
- DCSA Adjudication and Vetting Services (AVS) – AVS Updates (formerly known as VRO / CAS)
- NBIS Program Executive Office – NBIS Updates
- Back to Basics – Overview of the Investigation Process
- Conclusion.

Note: When logging into Webex, please use your government/company email (vs. personal email) and First/Last name.

Log into the Webex meeting using this link: [DCSA Industry Stakeholder Engagement \(ISE\) Meeting](#).

If prompted with “This site is trying to open Webex,” click Cancel. Then click [Join from your browser](#).

If you still experience issues, please use your phone to dial in at 415-527-5035 and use access code 2821-727-7983.

ADJUDICATION AND VETTING SERVICES

RENAMING OF CAS AND VRO

DCSA Consolidated Adjudications Services (CAS) and Vetting Risk Operations (VRO) have united to form Adjudication and Vetting Services (AVS). AVS promises to deliver enhanced service offerings, improved response times, and optimized case management for our customers. Leadership is carefully managing the transition to ensure service continues without interruption.

CONTINUOUS VETTING ENROLLMENT BEGINS FOR NSPT

DCSA announced the beginning of phased implementation of Continuous Vetting (CV) services for the Non-sensitive Public Trust (NSPT) population this month. This milestone achievement marks the start of a process that will eventually see more than one million additional personnel enrolled in CV services - ensuring a trusted workforce in near real time through automated records, time and event based investigative activity, and agency-specific information sharing. To prepare for this new capability, agencies are encouraged to start working on the process now. DCSA will coordinate with customers during the phased implementation period to ensure agencies are ready to begin enrollment.

Please refer to [DCSA News: CV Enrollment Begins for NSPT Federal Workforce](#) for more information.

NEW SF-312 JOB AID

NISP contractor personnel may now sign SF-312s using a DoD Sponsored/Approved External Certificate Authority (ECA) Public Key Infrastructure (PKI):

- The use of digital signatures on the SF-312 is optional. Manual or wet signatures will still be accepted by AVS.
- If the Subject digitally signs the SF-312, the witness block does not require a signature.
- Digital signatures must be from the list of DoD Sponsored/Approved ECA PKI located [here](#).
- The public list of DoD approved external PKIs that are authorized to digitally sign the SF-312 can be located [here](#).

The [Job Aid](#) and [OUSD I&S Memorandum](#) are available on the DCSA Website.

UPDATE ON CONDITIONAL ELIGIBILITY DETERMINATIONS

In February 2024, DCSA AVS began granting Conditional National Security Eligibility Determinations for NISP contractors. "Conditionals" provide increased mission resiliency to our customers by diverting national security cases from due process to monitoring provided by the DCSA Continuous Vetting (CV) Program. An update on the process and fact sheet can be seen [here](#).

NEW AVS CALL CENTER NUMBER

The AVS Call Center has a new phone number. The new number is 667-424-3850. The old number is still active but will be deactivated in the near future.

As a reminder, the AVS Call Center will continue to provide direct support and timely adjudicative updates to Senior Management Official (SMO) and FSOs worldwide. The AVS Call Center is available to answer phone and email inquiries from SMOs/FSOs, provide instant resolution on issues identified by Security Offices whenever possible, and serves as the POC for HSPD12/Suitability Inquiries.

The AVS Call Center is available from Monday through Friday between 6:30 a.m. and 5:00 p.m. ET to answer phone and email inquiries from FSOs only. Contact the AVS Call Center by phone at 667-424-3850 (SMOs and FSOs ONLY; no subject callers), or via email at dcsa.meade.cas.mbx.call-center@mail.mil.

For Industry PIN Resets, contact the Applicant Knowledge Center at 878-274-5091 or via email at DCSAAKC@mail.mil.

REMINDER ON TIMING OF ELECTRONIC FINGERPRINT TRANSMISSION

As we move closer to full implementation of Trusted Workforce 2.0, AVS continues to work diligently to partner with Industry to get cleared people to work faster and more efficiently all while effectively managing risk. To maintain our interim determination timeliness goals, we ask that electronic fingerprints be submitted at the same time or just before an investigation request is released to DCSA in DISS.

Fingerprint results are valid for 120 days, the same amount of time for which eApp signature pages are valid. Therefore, submitting electronic fingerprint at the same time or just before you complete your review for adequacy and completeness, should prevent an investigation request from being rejected for missing fingerprints.

CENTER FOR DEVELOPMENT OF SECURITY EXCELLENCE (CDSE)

AUGUST PULSE NOW AVAILABLE

We recently published the CDSE Pulse, a monthly security awareness newsletter that features topics of interest to the security community. In addition, we share upcoming courses, webinars, and conferences. The August newsletter focused on "Antiterrorism Awareness." Check out all the newsletters in the [CDSE Electronic Library](#) or subscribe/update your current subscription to get the newsletter sent directly to your inbox by submitting your email address from [CDSE News](#).

2024 DCSA CONFERENCE FOR INSIDER THREAT IN SEPTEMBER

The DCSA Conference for Insider Threat will be held on September 9-10, 2024, in support of National Insider Threat Awareness Month (NITAM). The conference theme is "Deter, Detect, Mitigate." Registration for in-person attendance for this event closed August 26 but virtual registration is still available. Visit the [registration website](#) to learn more about the event and register and view. The NITAM website is available for viewing [here](#).

INSTRUCTOR-LED CYBERSECURITY COURSE AT CDSE IN DECEMBER

CDSE is offering an instructor-led course on Assessing Risk and Applying Security Controls to NISP Systems (CS301.01) in December. This course is tuition free and runs December 2-5 in Linthicum, MD. Students should have completed enrollment (prerequisites and registration) by November 15.

The target audience for this training includes Information System Security Managers (ISSMs), Information System Security Officers, and FSOs involved in the planning, management, and execution of security programs for cleared industry. This 5-day course provides students with guidance on applying policies and standards used throughout the U.S. Government to protect information within computer systems, as delineated by the risk management framework process.

Go [here](#) to learn more, register, and view the required prerequisites.

NINTH ANNUAL COUNTER-INSIDER THREAT (C-InT) SYMPOSIUM

NITAM kicks off this year with the Ninth Annual C-InT Symposium taking place on September 4-5 in Washington, DC. DCSA is pleased to participate in this event that promises to bring together leading experts from Government, Industry, and academia to share insights and strategies to combat insider threat risks. Don't miss this opportunity to network, learn from distinguished speakers, and discover the latest advancements in insider threat detection and mitigation. Register now at counterinsider.com to be part of this important discussion. Active-duty U.S. military and Government personnel attend free; see the registration tab for details.

PERSONNEL VETTING SEMINAR

CDSE is presenting the virtual instructor-led Personnel Vetting Seminar on September 10-12 and November 19-21. This seminar will address the requirements associated with the reform of the Federal Government's personnel vetting system, which is known as Trusted Workforce 2.0 (TW 2.0). Its purpose is to aid personnel vetting practitioners in DoD, federal agencies, and private industry to understand TW 2.0 requirements, identify gaps between current and future procedures, and provide support through the implementation process. The seminar covers topics such as end-to-end personnel vetting operations, including the federal background investigations program, National Security Adjudications, Continuous Vetting, and Insider Threat analysis in a collaborative environment.

This 3.5-day course is intended for U.S. Government security professionals, military personnel, cleared industry FSOs, and other federal personnel performing personnel vetting security-related duties, as well as personnel executing security programs for cleared industry. Visit the [course page](#) to learn more and register.

ACTIVITY SECURITY MANAGER COURSE

Don't miss CDSE's upcoming Activity Security Manager course. This mid-level, virtual instructor-led course provides students with a comprehensive understanding of how to apply and implement specific DoD Information Security policies and procedures to mitigate and manage risks associated with developing, managing, and evaluating a DoD Information Security Program (ISP). Students are anticipated

to invest 40-60 hours over four weeks in a mostly asynchronous environment. The course is tailored for DoD civilian, military, and contractor personnel with primary duties as an activity security manager, information security program specialist, or manager within a DoD Component ISP. Students should have a functional working knowledge of the DoD ISP.

After taking this course, students can expect to implement the fundamental policies and requirements of the ISP, implement risk management to protect DoD assets, determine fundamental cybersecurity and information technology principles, and so much more. The first iteration takes place October 21 through November 17. For more dates and information, check out the [CDSE website](#).

INSIDER THREAT DETECTION AND ANALYSIS COURSE

Insider threats are one of the biggest risks to national security. Learn the latest analytic techniques with CDSE's virtual instructor-led "Insider Threat Detection Analysis Course" (ITDAC) training. During this 5-day course, attendees will apply critical thinking skills and applicable structured analytic techniques to potential insider threat indicators.

This course also allows learners to obtain and use holistic data in conjunction with the application of critical pathway theory. Some prerequisites apply. The 2024 and 2025 course schedules are as follows:

September 9-13, 2024 (Virtual)	April 7-11, 2025 (Virtual)
October 7-11, 2024 (Virtual)	May 12-16, 2025 (Virtual)
November 18-22, 2024 (Virtual)	June 23-27, 2025 (Virtual)
December 2-6, 2024 (Virtual)	July 21-25, 2025 (Virtual)
January 13-17, 2025 (Virtual)	August 18-22, 2025 (Virtual)
February 10-14, 2025 (Virtual)	September 22-26, 2025 (Virtual)
March 17-21, 2025 (Virtual)	

[Register here](#) for the ITDAC course.

UPCOMING WEBINARS

Sign-up is available for the following [upcoming live webinars](#):

Mass Shooter Contagion Theory and the Copycat Effect in the Evolving Media Environment
September 5, 2024
12:00 pm to 1:30 pm ET

Security Professional Trusted Workforce 2.0 Gap Training
September 17, 2024
1:00 p.m. to 2:30 p.m. ET

Counterintelligence and Insider Threat Curricula Overview
September 19, 2024
12:00 p.m. to 1:00 p.m. ET

[Register here](#) for these webinars.

CDSE NEWS

CDSE offers an email subscriber news service to get the latest CDSE news, updates, and information. You may be receiving the Pulse through a subscription, but if you were forwarded this newsletter from another source and would like to subscribe to the Pulse or one of our other products, visit [CDSE News](#) and sign up or update your account to receive:

REMINDERS

FACILITIES MAY ADVERTISE EMPLOYEE POSITION PCLs

In accordance with Title 32 of the Code of Federal Regulations (CFR) Part 117.9(a)(9), a contractor is permitted to advertise employee positions that require a PCL in connection with the position. Separately, 32 CFR Part 117.9(a)(9) states "A contractor will not use its favorable entity eligibility determination [aka its Facility Clearance] for advertising or promotional purposes."

DO NOT SEARCH FOR CLASSIFIED IN THE PUBLIC DOMAIN

Per the principles the 2017 DCSA (then DSS) Notice to Contractors Cleared Under the NISP on Inadvertent Exposure to Classified in the Public Domain, NISP contractors are reminded to not search for classified in the public domain.

NISP CHECKUP

The granting of a Facility Clearance (FCL) is an important accomplishment and its anniversary marks a good time to do a NISP checkup for reporting requirements. During your FCL anniversary month, DCSA will send out the Annual Industry Check-Up Tool as a reminder to check completion of reporting requirements outlined in 32 CFR Part 117, National Industrial Security Program Operating Manual.

The tool will help you recognize reporting that you need to do. DCSA recommends you keep the message as a reminder throughout the year in case things change and reminds cleared contractors that changes should be reported as soon as they occur. You will find information concerning the Tool in a link in NISS. If you have any questions on reporting, contact your assigned ISR.

This tool does not replace for or count as your self-inspection, as it is only a tool to determine report status. An additional note regarding self-inspections, they will help identify and reduce the number of vulnerabilities found during your DCSA annual security review. Please ensure your Senior Management Official certifies the self-inspection and that it is annotated as complete in NISS.
